One of the extremist Trump supporter websites must have listed your phone number. Fortunately for us, amigos is not a chamber member at this time. They chose to resign in June out of protest for one of our board members who they felt was inappropriate to serve do do a personal legal matter. Therefore, people do not see any affiliation with the chamber on the internet and I have not been getting pummeled. As a friend, I have been trying my best to advise Wendy to refrain from debating people on social media and to not participate in additional interviews over this controversial matter. Channel 10 was begging to interview her today and she agreed. I was on relenting in Mayeye mornings that this was a horrible idea and would only perpetuate the situation and negativity. She is very emotional, and generally a stubborn person. She has no intention of apologizing for any confusion or misinterpretation of the message. She is rightfully angry with Senator Elaine Morgan who is completely out of line for her vicious misrepresentation of the meaning of the shirts. Senator Morgan never even had the courtesy of contacting Wednesday to discuss the matter. She simply took to the social media circuit to harshly criticize a small business that's not even in her district. I believe that amigos business and the town in general will be paying the price from this unfortunate incident. Nonetheless, I patronize the business last night with three others and I plan to do it again tonight. If you'd like to join me for a margarita and try to offer support and advice, the more the merrier.

What a lovely town to avoid this Christmas season. I approve of free speech yet abhor a call to violence. Let your residents know my family and I will not be eating Mexican in Westerly. Nor will we be doing any Christmas shopping there.

Viva Presidente Trump.
